TTP 8200 STD, 8d/mm, 210mm, Cutter & Presenter

Zebra TTP 8200 label printer Direct thermal 203 x 203 DPI 100 mm/sec Wired:

The TTP 8200 series kiosk printers offer 203-dpi resolution for full-format A4 or letter-size printouts of forms, bank statements, maps, or Web pages. The fast, compact, and low-maintenance design makes these printers ideal for unattended environments. The pull detector and jam-preventing loop presenter provide trouble free operation. The retract function keeps sensitive documents from being left behind outside the kiosk – and it saves media. If a printout is not taken from the printer, the output will be retracted and the remaining information can be deleted from the print queue, eliminating unwanted print jobs. The TTP 8200 is available in three configurations for flexible kiosk integration: standard, compact, and vertical, each equipped with standard USB and parallel interfaces. For additional configuration flexibility, the media can be mounted either behind or below the printer.
