Plugable USB 3.0 10/100/1000 Gigabit Ethernet Adapter

The Plugable USB 3.0 10/100/1000 Gigabit Ethernet Adapter (USB3-E1000) is an easy way to gain wired gigabit network speeds over USB 3.0 for faster HD video streaming, gaming, web browsing, network access, and more. It's also the perfect travel companion for any laptop or tablet due to its small size and USB bus powered design. Some common uses include:

- Adding wired gigabit network support to Windows, Ultrabooks, or notebooks without an Ethernet connection
- Replacing or upgrading network adapters for your computer
- USB network adapters can improve speeds compared to older 10/100 adapters, and most wireless networks
- Adding additional network interfaces, and transferring files peer-to-peer over Ethernet
